

If the turkeys won't vote *for* us, we need to change the turkeys...

...**BECOME AN MP**

Do you believe that the British people should have the right to vote on:

- Staying in or leaving the EU
- Setting up an English Parliament for English matters
- Reducing the number of MPs by a third (from 650 to 433)
- Changing Commons elections to proportional representation
- Requiring referendums on petition by 5% of the electorate
- Limiting government borrowing to 10% of expenditure
- Protecting bank customer deposits from casino banking
- Limiting benefits to 80% of the after tax minimum wage
- Sentencing violent criminals to 'army style' punishment
- Limiting UK troops in Afghanistan to the NATO average
- Requiring private medical insurance for non-EU citizens
- Establishing a 10 year residence requirement for UK Citizenship
- Allowing state schools to opt out from local authority control
- Requiring stores to let customers leave excess packaging

Go to www.juryteam.org to see details of these Proposals and how much the electorate support them. We will give back to people their pride in this country and its institutions. They will become the **ultimate jury**.

We are now looking for people to become candidates to be MPs. We will help good candidates to get elected. When elected you will vote for the Jury Team's Proposals but on the basis that these will not become binding until agreed by an authorising referendum. You will otherwise be free to use your best judgment in voting on behalf of the country and your constituents. No party whips.
